Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	<p>I write to oppose this application for the following main reasons. The proposal is for a house on a piece of land that was used at horticultural and is designated as horticulture. There are a number of local plan policies that act to support this land use which should therefore not be changed to residential.</p> <p>The proposed house is located within the High Weald AONB. The proposed house would not support the existing permitted horticultural land use, it would hinder it. If consented it would</p>

inevitably lead to the owners applying for additional homes which would further contradict the existing land use and associated policies.

The proposed development is not consistent with the guidance contained in both the Slaugham Neighbourhood Plan and the Mid Sussex District Plan.

The planning application should be refused.

Kind regards
