

T3, T4, T5, T6 remove 4 x portugese laurel, cut back to stump level. There are very big and need managing. They block out other native species. Will replace with native hedging.

T7 Ash reduce by 10m. Has signs of ash die back and some of the branches are overhanging the garden making the tree unbalanced.

T1, T2, T8 Holly reduce to hedge line together as they are spindly and have poor form.

T9 Macrocarpa Cypress reduce to stump level. Dominant in hedge and will replace with native species hedging

T10 Holly reduce to stump level. Covered in ivy and close to the house. Will replace with native hedging.

All these applications have been submitted before and approved, but have lapsed before the work could be carried out. DM/22/0951 and DM/18/0607
