Subject: Tree in West Hoathly Bowls club car park

[REDACTED]
To whom it may concern,

I am distressed to be informed by our neighbours that there is a request to fell the oak tree at the Northern Edge of West Hoathly Bowls Club car park (RH19 4PP).

I wish to object in the strongest terms, as the tree appears in good health and provides all the benefits that a tree of that size provide, including carbon capture, providing a home for wildlife, enhancing the well being of locals and provides a green welcome to people entering the village by Hook Lane.

I would request that the permission is refused and the tree be allowed to live on.

Thanks and best regards

[REDACTED]
