Subject: DM/26/0696 objection to planning application

[REDACTED]

Hello,

I have seen that there is a planning application for adastra park for a two lane cricket net structure.

I think in the proposed location near the skate Park it would take up far too much room. I assume the current bench at that end would have to be removed or moved. Surely it would impinge on the play park and the football pitch as well as the skate park and the sitting area. Both ends of the park would then be devoted to cricket.

I feel it would sit much better at the other end near the current nets and garage, or at the back of the tennis courts. Is this a possibility?

My details are:

[REDACTED]
66 Friars Oak Road
Hassocks
BN6 8PY

Please could you reply by email rather than post?

Thank you,
