[REDACTED]
Good Morning

I would like to object to this proposal for the following reasons:

This is a beautiful valley that is of great value to the population of the area, and there are more suitable areas to build houses that will not have such a negative impact on the environment.

The further increase in traffic in this area will be disruptive and polluting.

The increase in traffic through Balcombe and Cuckfield to get access to the motorway network will have a devastating effect on both these villages, which are already suffering with noise and pollution.

We are getting increasing problems with water shortages and there is no plan to increase water storage in Sussex. Where is the extra water coming from?

Yours
