Hi Debbie,

Hope you're well.

Please find attached the amended information submitted in support of the application, which includes the updated red line boundary as requested. The red line now extends to the existing surface water sewer within Wheelwright Lane. This has been reviewed by GTA (Drainage) and CSA (Ecology) and SJA (Arb) who have provided updated assessments to account for the new land included.

The following updated documents are attached:

- Location Plan
- SuDS & Foul Drainage Strategy
- BNG Assessment
- BNG Metric
- Arboricultural Implications Report

We would be grateful if you could confirm safe receipt and advise when the re-consultation process is underway.

For completeness, the appropriate notices were served today and commercial discussion have been undertaken with these parties.

Should you have any queries, please do not hesitate to contact.

Kind regards,

Tom
