11th June 2025

Dear Sir/Madam

We object to the continuing of this land as a recreational cross driving course for 4 wheeled vehicle for a number of reasons.

Firstly it interferes with enjoyment of our garden due to noise of the revving of engines, & and swearing.

Secondly the course at the south end of Colwood Lane adjacent to our property consists of an deciduous woodland which should be protected and not destroyed.

Thirdly the noise of the vehicles as they grind their way through the woodland destroys the natural habitat of the

distress.

Fourthly the site has suffered from lack of maintenance in the few years. After storms and hurricanes many of the trees are left in a dangerous state. The course each month generates a lot of traffic which leaves a trail of mud and on our roads which is a danger to cyclists and horses.

In conclusion. The site is unsuitable as a 4 by 4 recreation cross country drive course. It is a cross country site but a waste in an area of outstanding natural beauty in the centre of a small residential Sussex Village.

As the rest of the world tries to preserve our seas, polluted rivers and maintain land and forests for future generations, here each year in Bolney the complete opposite is allowed to happen.

I hope the council will be en
enough to refuse permission
the 4x4 driving course to
continue.
