8th June 2025

To the planning department Mid Sussex District Council.

I am objecting to the planning application for Foxhole Farm
DM/25/1129

Dear sir/Madam,

I am objecting to application DM/25/11225 Land at Foxhole
Farm for the following reasons.

1, The proposed plan is outside Bolney's built up area
boundary and in open countryside. It's size almost doubles
the number of homes in the village and would change the
character of the village.

2, The A272 is a very busy and dangerous fast road which
prohibits the safe travel by bicycle and pedestrians. Cars
would be required by the households to access any facilities
provided out of the village.

3, We do not have any post office and dental and general practitioner services are very difficult to access across the local area.

4, As I am writing this our water supply has reduced to a trickle today and a Development of this size would create even more pressure on our already strained water supply due to burst pipes and droughts which will only increase with inconsistent periods of rain over the country.
