Dear Christine,

Thanks for your e-mail with the letter dated 3rd March regarding my application for work on an oak tree in our back garden. Please find attached a copy of a plan drawing of the site which hopefully provides information about the location of the tree. I'm not sure if I included it in my initial online application but please also find attached a photograph of the tree in question.

Thanks in advance for your assistance in this matter.

Kind regards,

[REDACTED]
