Title: Planning Applications DM/25/0014, DM/25/0015, DM/25/0016 and DM/25/0017 - Land west of Turner's Hill Road, Crawley Down

Dear Steven,

I'm writing to support the application by Wates for the development listed above.

We are residents on the immediate west side of the development and were extremely worried about the impact on our quiet rural property where we have lived for many years.

We have recently been reassured by how Wates have worked with us and our neighbours and listened to our concerns about the development and tried to reduce the impact that it would have on us all.

Wates have worked with the local community in making other areas of the development sympathetic to the area's needs.

We are particularly pleased that the area to the immediate east of us has been set aside as a SANG area and also that a promise has been made never to develop this particular area further. This is something that will have the most impact on our property in particular and reduce the impact of flow on the many species of wildlife that use this space.

There has also been an agreement to insure our access lane is safe and functional for many years to come. We look forward to seeing this work completed.

In summary as long as the development that occurs is consistent with what has been discussed, particularly the SANG area and agreed by Wates then we are willing to approve it.

Your sincerely
