Subject: DM/25/3129 - objection to Sugworth Farm development

[REDACTED]

Dear Sir

I wish to express my strong objection to the development DM/25/3129 at Sugworth Farm. The chosen area is not part of Mid Sussex District Plan, is historically significant and ecologically very sensitive - therefore does not meet any of the criteria required for being designated as suitable for the construction of dwellings.

The number of dwellings in the re-submitted plan and the proposed roundabout - much larger than the existing one - would increase the level of traffic, pollution and completely change the surrounding rural landscape. It would also seriously damage it by destroying its wide range of flora and fauna.

There is no doubt that Haywards Heath has already reached the saturation point in terms of services and infrastructures, as a result of the high number of new builds added over the last few years.

Therefore adding more new builds would only increase the current strain on public services.

It is my strong conviction that the Council has to do everything in its power to finally stop this planning application and declare the whole area “protected” as adjacent to the High Weald National landscape.

I trust the above will be taken into consideration.

Kind regards
