Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I would like to support this planning application. I have worked for a local Ansty business for the past five years and, through my job, have got to know the village and its community really well. It is a great place to work, and I would love the opportunity to one day live in the same village that I travel to

every day.

Like many people, I am currently living with my parents while saving towards my first home. Finding suitable properties in villages such as Ansty can be extremely difficult, so I welcome developments like this that provide more housing opportunities for people looking to take their first step onto the property ladder. From what I have seen, the plans are well thought out and the development feels like a natural continuation of the homes that have already been built nearby. It appears to fit comfortably within the existing village and has been designed in a way that complements the surrounding area.

I also think it is important that local people and those who work within village communities have opportunities to live closer to where they work. Developments such as this help keep villages vibrant and allow more people to become part of the communities they already contribute to on a daily basis.

Overall, I believe this is a sensible and well-designed proposal that will bring positive benefits to Ansty, and I hope it receives planning approval.

Kind regards
