Subject: DM/26/1146

Dear Jessica

Following the latest deadline being set, these are my objections:

1. I have lived at my home since May 2015. I understand [REDACTED] lived here for approximately 10 years prior to that time.
2. I bought my house from a builder who had purchased the house as a flip and applied for an was granted planning permission. [REDACTED]
[REDACTED].
3. As I understand it [REDACTED] a large area on one side of his house adjacent with his neighbour. My house is on the other side of him. This aerial seems to have served his [REDACTED] requirements for at least the last decade.

[REDACTED]

5. Crawley Down is a very small village and the new aerial, erected without planning permission, is significantly out of character for such as a residential setting. It is vast and indeed significantly taller than my house when fully extended. Photos showing before and after erection to show the proximity to my home.

6. The aerial significantly sways as verified by not only myself but the owners of two houses that back into his. It is excessive, out of character and is affecting the signals to the adjacent properties, impacting ability to work, social need.

[REDACTED]

8. [REDACTED] states the aerial cannot be seen. That is not the case. I have two ground floor side windows, a landing window and a kitchen window immediately next to [REDACTED] property. The aerial is so vast when fully extended that it causes me huge anxiety as to its safety, size and overbearing size which has completely spoilt my use and enjoyment

of my garden. It is impacting my use of my own home and his other neighbours have confirmed the same.

[REDACTED]

[REDACTED]

11. No explanation has been given why he needs such a commercial aerial and why the old one was insufficient. [REDACTED] has detrimentally impacted property prices, the village appearance, the enjoyment of at least three adjacent properties.

[REDACTED]

13. [REDACTED] acted with no permission to erect the aerial and if should come down urgently. His hobby can continue either at a different location or as it used to with a smaller aerial away from my property.

[REDACTED]
