Dear Kevin,

Thank you for the email and photographs supplied in relation to condition 3. I note the works that have been completed and a copy of these have been placed on the application file.

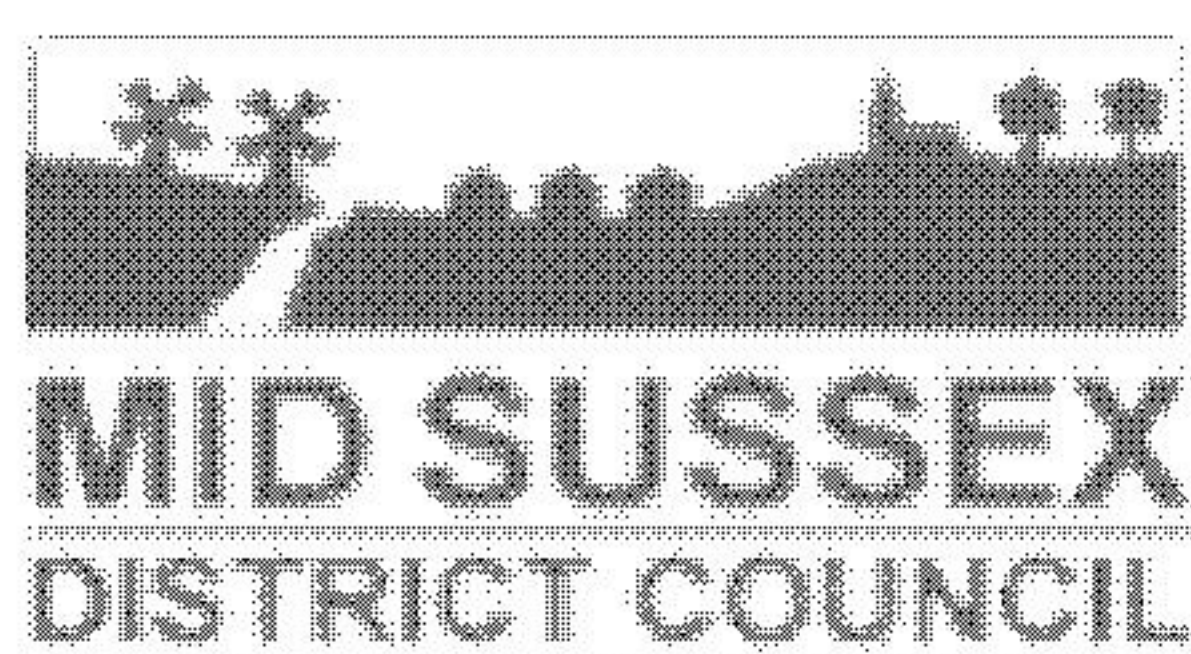

With regards to the appeal, the documents associated with this, including the Inspector's decision, have been logged under appeal reference AP/26/0027. This record is available to view using the reference number and the following weblink:

Subject: DM/25/1912 – Broadhurst Stables, Appeal reference 6008556

Dear Caroline

I hope all is well with you. Following the Inspector's decision dated 14 August 2026 allowing the appeal and granting planning permission, I attach a PDF file containing ten photographs showing the works undertaken to comply with Condition 2.

As the photographs show:

- planters have been installed at the foot of the windows serving Bedrooms 1 and 4;
- Lonicera henryi has been planted within the planters; and
- wire trellising has been installed over the stonework and the plants have been trained onto it.

I therefore consider that the initial requirements of Condition 2 have now been fully complied with, subject of course to the continuing requirement to retain and, if necessary, replace the planters and planting.

I should be grateful if you would confirm that the Council agrees that the requirements of Condition 2 have been satisfied and that no further action is required in relation to its initial implementation. I should also be grateful if this email and the attached photographic record could be placed on the planning file for DM/25/1912.

I also note that the Council's online planning register records that the appeal has been allowed, but the Inspector's decision itself does not appear amongst the documents for DM/25/1912. As that decision now constitutes the grant of planning permission and contains the operative conditions, I should be grateful if a copy could be added to the online planning record.

I look forward to hearing from you.

Best wishes

Kevin
