Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This installation would ruin the view. It's close to residential properties. ICNIRP standards are grossly out-of-date and self-policed, and accept no liability for any errors. 5G technologies are implicitly untested over time. There are substantial queries about public health, especially for people with metals in their bodies (pacemakers, replacement hips and knees, etc). More information at lanJarvis.co.uk . Planning officers who approve installations which cause harm are personally liable for compensation.

Kind regards
