Dear Anna,

I hope all is well?

Further to your email below, please accept this email as our agreement to the extension of time until 9th January 2026.

We have today received the fee quote for the GCN surveying, and our Client will hopefully agree appointment shortly. I will keep you up-to-date with how things progress on this.

Best regards,

Rob

Dear Rob

Further to our last emails of 18.11.2025, see below, I wonder if you can provide me with an update on progress on the awaited supporting ecology information for the above applications?

Both applications have a Decision Target Date which currently run to tomorrow, 27.11.2025.

Please confirm if your client wishes to agree **Extension of time dates** for the Decision Target Dates (for both applications), may I suggest to 09.01.2026, or wishes to **Withdraw** them to resubmit with the additional ecology information, once prepared?

I look forward to hearing from you by return email.

Thank you.

Regards

Anna

Hi Anna,

Very many thanks for your email.

Rest assured this has not been forgotten about, and I am awaiting feedback from an ecologist with a quote for preparing the necessary information. As soon as this is received and agreed with our Client, I will be in a position to update you on progress and timescales.

I look forward to being in touch again soon.

Best regards,

Rob

Dear Rob

I am aware that I have yet to receive a reply from you regarding your clients intended approach to the comments from the District Licensing Officer (Great Crested Newts), which I forwarded to you on 05.11.2025?

I look forward to hearing from you.

Subject: FW: NatureSpace Consultation response/Site visit notification - DM/25/2463 & 4 - The Barn House, Cuckfield Road, Ansty.

Dear Rob

I have received the attached comments today from Laura Downs, District Licensing Officer (Great Crested Newts) for West Sussex regarding this application.

As you can see Laura has **requested additional information** to support the application, as she is of the opinion that there is a **reasonable likelihood** that Great Crested Newts will be impacted by the development proposals. Three recommended approaches are outlined :

-Submit a NatureSpace Report or Certificate to demonstrate that the impacts of the proposed development can be addressed through Mid Sussex District Council's District Licence. This method of licensing often removes the need for survey work and onsite mitigation for great crested newts as it provides compensation habitats off site. (more details can be found at www.naturespaceuk.com); or

-Provide further information (PEA), in line with Natural England's Standing Advice, to rule out impacts to great crested newts*, or demonstrate how any impacts can be addressed through appropriate mitigation/compensation proposals**; or

-If it is determined that there is no suitable habitat impacted on site and the likelihood of great crested newts is very low, then a precautionary working statement in the form of Reasonable Avoidance Measures (RAMs)/Non-Licensed Method Statement (NLMS) strategy documents completed by a suitably qualified ecologist may be acceptable for the development.

Please can you discuss this matter with your client and advise me how he wishes to proceed?

Site visit - Whilst writing I shall be in the Ansty area on Friday afternoon this week. I would like to carry out my site visit to assess the above application on **Friday 7th November, at around 2.30pm -3pm, if that is convenient,**

I do not need to meet anyone at the site, but I will need to enter the garden. The visit should not take longer than 30 minutes. I will take photographs of the building and the surroundings to assist in my report writing. **Please ensure any access gates are unlocked and openable.** If there is any reason why your client would rather I didn't visit then I shall be pleased if you can advise me as soon as possible.

I look forward to hearing from you regarding my visit.
Thank you.

Kind regards
Anna
