The western end of the east-west road corridor and the southern link to the B2036 Cuckfield Road will both facilitate connections to the Green Superhighway. All will be constructed to an adoptable standard, together with associated crossing points, earthworks and vegetation removal, surface water and foul drainage infrastructure, utilities corridors and diversions, road lighting, soft landscaping, including tree-planting and temporary fencing, on-street parking and provision of in-line bus stops for bus services.
