To the Planning Office,

Re: Planning Application – Proposed Double-Storey Rear Extension at 45 Priory Way, Haywards Heath, RH16 3LS

I would like to raise my concern regarding the recent planning application for the proposed double-storey rear extension at 45 Priory Way, Haywards Heath, RH16 3LS.

Having reviewed the proposed plans, my only objection relates to the proposed master bedroom window, which faces north and would look directly down towards our south-facing garden at 21 Priory Way.

Due to the elevated position of the proposed window, I am concerned that it would result in a significant loss of privacy within our garden, as well as overlooking our rear bedroom and main family bathroom windows. The window would have a direct line of sight towards these areas of our property.

I would therefore ask whether it would be possible for this particular window to incorporate obscure/frosted glazing, which I believe would provide a suitable compromise. This would allow natural light to continue entering the master bedroom at 45 Priory Way, while also protecting the privacy of the neighbouring properties directly facing the extension.

I would greatly appreciate it if this concern could be taken into consideration when assessing the application, with the aim of reaching a reasonable and agreeable solution for all parties.

Kind regards,
