Good afternoon Amelia,

Please find attached a marked up copy of drawing NWE25-5903-001 confirming 1 FH will be required in total, supplied by and fitted to a minimum 90mm sized main.

The installation(s) needs to conform to the Standard Specification BS750 and relevant revisions, including FH cover(s).

The developer is to pay for the cost of the installation(s) and WSFSR will maintain it once inspected and adopted on to our mapping.**

Please arrange for this office to be informed as soon as the installation is in place and ready for our inspection, which should be before the properties are occupied.

****This is important as WSFRS is unable to adopt any FHs or add the locations to our mapping (which the fire fighters see) until this inspection has taken place and the site will remain at risk if there is any delay in us being informed.**

If you have any questions or updates for WSFRS regarding this mains construction, then please contact us via email frs.waterandaccess@westsussex.gov.uk and quote our ref C04236.

Please acknowledge receipt of this email and confirm you will abide by our request to notify this office as soon as the FHs are in place, fully accessible and ready for us to inspect/adopt.

Thank you

Regards

Ian

Subject: 02.NWE25-5903 - Ashurst Wood, West Sussex (Antler Homes) Fire Hydrant Request

Good Afternoon,

Please can you review the attached design and advise on the FH locations?

This is a NAV site signed up with BUUK

Kind Regards,

Amelia Greenhalf
