PERSONAL STATEMENT

Please find attached our application for planning permission for a proposed annexe within the grounds of our home.

The proposed annexe is intended to provide accommodation for our daughter so she can continue living close to the family while maintaining a degree of independence. As a family, we feel it is important to remain close and support one another in day-to-day life.

We also regularly have family members and relatives staying with us throughout the year, and the additional space would help us accommodate family visits more comfortably.

We hope the Council will consider the application favourably and please let us know if any further information is required.

Kind regards,
Claire & Gareth Page
