

MSDC
Planning Application
DM/26/1714

Dear Mr Evans:

Re: The Limes, 17 Bolmore Road Haywards Heath

The proposed borehole is very close to a protected line of lime trees.

My concern is that any extraction of water is likely to reduce the availability in the vicinity and consequently affect these trees adversely.

In my experience the topping up of a swimming pool is normally from the main supply and in view of the above risk suggest that the above application is denied or at the very least restricts usage exclusively for a swimming pool of the existing size.
