**Subject:** Land At Borde Hill Lane Haywards Heath West Sussex - DM/25/3129

Hi Graham

Further to the consultation comments I passed on yesterday, I have now received the following additional comments from the LHA:

*'Further to our discussion this morning in light of comments submitted by a third party about the position of the ATC surveys and other comments about the proposed access arrangements to the site, having now conferred with a colleague in our S38/278 Implementation team, WSCC ask that the following additional information be provided by the applicants:*

- *A note explaining the dates the ATC surveys were undertaken (and why they consider those dates are relevant/appropriate) and also the decision behind the locations of the ATC surveys on the approaches to the roundabout and how they consider these comply with current technical guidance and/or standards (i.e. DMRB etc) to inform forward visibility and Stopping Sight Distances (SSD).*

*Please would you pass this on to the applicant – thank you.'*

Regards

Steve
