Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	First of all I already have them overlooking my house with their loft conversion, I don't want them overlooking the bottom of my garden as well. They have trees at the bottom of their garden which are overhanging on my garden and when they had professional tree surgeons in to cut back the trees they didn't even attempt to remove the trees from my property and if they have this mobile cabin then they will never remove them. Also this is a mobile cabin which my understanding means on wheels as it is it mobile, how are they expecting to get that mobile home in to the

garden as we live on a main road. How are they expecting to run gas and electricity to this mobile cabin, I hope they are not using gas canisters that that would be against health and safety for all the neighbours within the area, we live opposite a petrol station. I do believe I have a right to my privacy and i don't understand why they need to have a mobile cabin in the garden, they only have 2 children with a 3 bedroom house and if this is for Michelle's mother, she is the one that sold them the house in the first place at a reduce price so she could buy a mobile home.

Kind regards
