Additional Information

ADDITIONALINFORMATION	
For all trees	
Sketch plan clearly showing the position of trees listed in the previous question	Tree location.PNG (download)
For works to trees covered by TPO	
Please provide a reason why you wish to perform these works	Encroachment onto neighbouring properties, causing excessive overhang, loss of light, and potential for branch failure over boundaries. The trees have been previously excessively reduced, resulting in weak regrowth unions that are more prone to failure. A reduction of up to 3 metres (approximately 30%) is intended to manage the size and spread of the canopy, reduce mechanical stress on weak unions, and improve the trees’ long-term structural integrity. The works will also help maintain the amenity value of

	the trees while ensuring they remain safe and appropriate for their residential setting.
Condition of the trees(s)	No
Advice/Diagnostics	
Alleged damage to property	No
