Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Dear MSDC, We were not notified or consulted on this application despite having a line of sight to the mast from our front and side windows. At 30 metres high, we will be able to see it from our house and we believe this constitutes significant overbearing impact and loss of outlook. Additionally, this is an intrusion into the countryside. The mast is

proposed to be sited along a footpath nature corridor used by us, neighbours and walkers for both leisure and getting to and from Wivelsfield station. Part of the reason we chose to live in The Blackthorns was this slice of nature, which is now being threatened by this mast.

Kind regards
