1. Windows and doors

I would like to be aluminium for maintains and most of the house on the road are upvc. Using an aluminium frame will get a slider profile with Georgian bars in the glass to give the look required.

Something like this but different colour

Colour scheme chart well green or black in a bit of a combination with all the other other material chosen.

The window and door I deal with a lot in my job as I own a building company and being a joiner by trade as this will be my house to live in.

2. The rear roof light

The roof light would be a velux window timber white finish
