Comments Details

Comments:

Given the nature and scale of the proposed development, no objections are raised from an Environmental Protection perspective. Whilst there may be some temporary disturbance during the construction phase, this is expected to be limited in duration. Any future allegations of statutory nuisance arising from the use of the premises would be investigated under separate legislation if received.

Should planning permission be granted, I would recommend the following conditions:

1) Construction hours: works of construction or demolition, including the use of plant and machinery necessary for implementation of this consent, shall be limited to the following times:

Monday to Friday: 0800-1800 hours
Saturday: 0900-1300 hours
Sunday and bank holidays: no work permitted

Reason: to protect the amenity of local residents

2) Deliveries: deliveries or collection of plant, equipment or materials for use during the demolition and construction phase shall be limited to the following times:

Monday to Friday: 0800-1800 hours
Saturday: 0900-1300 hours
Sunday and bank holidays: none permitted

Reason: to protect the amenity of local residents

3) No burning of demolition or construction waste materials shall take place on site.

Reason: to protect the amenity of local residents

Kind regards
