Address: Park Farm Felbridge

Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I fully support this application. Saint Hill is host to many local community events and it is especially during these events that additional parking is needed, to support the vast numbers of visitors attending these wonderful

community gatherings.

The additional parking alleviates traffic build up in the town, as Saint Hill can more easily accommodate the East Grinstead and surrounding community on its own grounds.

Saint Hill provides not only for its parishioners, but has the added purpose of being a centre for the community as a whole. It has strong ties with the two neighbouring sports and rugby clubs, who I'm sure would equally benefit from such expansion of car parking space and facilities.

From an environmental aspect, Saint Hill has a wonderfully diverse set of gardens with a focus on planting and a department dedicated to enhancing the biodiversity and natural beauty of the space. Planting of trees and maintaining the trees within the proposed site seems a great enhancement beyond any detriment to the environment. The proposal should be supported.

Kind regards
