Dear Stefan,

I hadn't realised the time limit has past to submit comments on this application.

If it is possible to add our comments still I would be grateful.

The Council did consider it last night and has no objection to this application but would like for there to be a condition or request that blinds are fitted to any skylight windows to project the dark skies at night as highlighted in the Horsted Keynes Neighbourhood plan please.

Thank you for your help,

Kind regards

Anita
