Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I have been living in East Grinstead for 30 years. I came from France with my wife as I found St Hill Manor to be a brilliant site, showcasing the beauty of the south of England. Since I've been here, every year I attended the IAS event which brings to the region a great economic boom by the number of people who come from all over the world. it's always a huge accomplishment to set up this event because of the number of the participants, but obviously the number of places to store your car is still not enough. I was very impressed by this project of a new car park which offers a great solution to keep the beauty of the English countryside and to have a way to park your car adequately which will also help the sports centre and the rugby club during their events. This car park will also avoid having all these cars parked along the road, which is aesthetically unpleasing and dangerous. I have a very good impression of this project which has positive aesthetic and economic impact on our region. I thank you in advance for approving this project which is from my point of view very positive.

Kind regards
