Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I support the application of the temp carpark. It will not have any visual or environmental impact due to the use of the bedded in drive on cells which allows the grass to grow up and not be an unsightly carpark. Also the the temp car park can be used by the Rugby club and EG Sports Centre for their events so this is a good neighbourly use of the space, which means many people will be able to park safely, get traffic off the road and minimise cars parking dangerously along St Hill road in front of the rugby club and sports centre. It is my understanding that the tent underground infrastructure is likewise not intrusive to the environment and once installed will have no detrimental impact on wildlife, grass and trees. To be honest, anything which brings more employment and business to East Grinstead is a good thing and I feel allowing this application will generate more revenue to local businesses (hotels, restaurants, shops in town, taxi, public transport, etc) over the IAS weekend and the few dates the Church puts on events for the community.

Kind regards
