Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This development proposes an almost industrial scale equestrian facility. The current facilities would seem sufficient for the needs of an enthusiastic equestrian owner and the fact the current stables need repair does not seem an adequate reason to build more. Do the arenas have lighting? Does dressage training involve horse dancing to music?, if so the sound system will be another environmental intrusion. The scheme seems a major intrusion on the countryside. The plans as submitted seem inadequate or just plain inaccurate. I have spent hours trying to work out where the various elements of this scheme are located and have come to the conclusion that there is mislabelling on the plans. The proposed outdoor arena will cover a large area in non natural materials and the idea that

the development will provide employment seems to add concerns about the scale of the business.

Yours sincerely
