[REDACTED]

Deborah,

Firstly, I want to thank you for the quick response to my email and explanation for the address change. Since moving into #3 I have been pestered continually with people at my door asking about the land and who the owner is and contact info. Sometimes they get very aggressive especially around holidays especially Easter. Since living here I often wondered if I will wake up in the morning with the land full of caravans. So putting so much emphasis to my address I just didn't want people opposed to the application knocking at my door. As to my comment of a proper road, this is regarding noise and dust created with traffic during the initially build. The area as it is has offered seclusion and security from the main road, this said a 6ft fence along my property line would help with these concerns and make my garden less exposed. [REDACTED] have told me through the years their intentions with the land was just as they have proposed, saying that they have kept their word. Maintaining the overgrowth and trees from the land has been a struggle so the area definitely needs attention. To finalise, I am 100% in favour of the approval of the application.

Kind Regards  
[REDACTED]
