#### Planning Application Objection

I wish to object to the above application registered between the 20th-24th October.  
This area (Keymer Road Burgess Hill) has already been ruined with an overload of recent housing developments passed and approved by MSDC.  
This is an area of outstanding natural beauty with biodiversity at its heart. The increased traffic on the Keymer Road/Ockley Lane is already problematic and this proposed inappropriate development will simply add to the existing problems.  
I wish to be kept advised of progress in respect of this application.
