| Comments:            | The brick wall makes no difference though I can only see a straight line of fence in the planning application and not a wall on what is sloping ground, so cannot be straight. My earlier comments still apply as to the winter ground water drainage from my property. I feel that If the land this application refers to had been intended for sale by Brookworth's the drainage would have been made in the South facing wall of my property and I would have been readily able to see that it was efficiently doing its job. I regret that I have to say that I object |
