Anna,

So that you can update the agent on Monday, please can you advise them that:

1. I will be recommending a sound proofing condition between commercial and residential.
2. I accept the comments regarding restrictions on class E use and will be recommending a condition regarding this.

I need time to understand the contents of the acoustic report in terms of the control of noise from the road and railway line. The report contains a great deal of technical information and, given more pressing issues at the moment, I can't read it today. I will be able to comment more fully next week.

Kind regards,

Jane Cooper
