Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	It would seem extreme to clad the posts and gravel board as other existing lengths of close board fencing have concrete posts - the first 30m from the public highway. The timber cladding of the gravel board will decay even more rapidly being partially buried resulting in unnecessary replacement. A application of liquid mixen would have encouraged moss growth equally well. Let's hope the application is a close to what has created friction between the immediate neighbours

Kind regards
