Dear John

Thanks for sending this additional information. I have passed this on to our Drainage Engineer for their comments.

For clarity, I think that this information is related to the application that seeks to discharge the drainage condition attached to the outline planning permission (reference DM/24/1447). Application DM/24/2622 is a reserved matters application for two buildings at the site. I would not add a new drainage condition on to the reserved matters consent as there is already a drainage condition on the outline planning permission.
