We have currently moved into no 30 Kilnwood Apartments and have received notice that a planning application has been applied for to install a mast We moved in to this apartment for the views and beauty of the South Downs had we known at the time plans for a mast to be installed we would have not taken the decision to move here We strongly disagree with this to go ahead on the basis we feel as listed Limit the current view Restrict our parking space and access to the mast for up keep and maintenance Reports of health issues being so close to proximity to us and other residents in this residential area An eyesore to the natural beauty and surroundings Therefore we are making our intentions known that we strongly object for planning permission to be allowed for this to go ahead in close proximity of a residential area of natural beauty.

Kind Regards
