Hi Cathy

Further comments on the above discharge of condition application (to be read alongside my email of 14th January)

The applicant has provided further information in relation to the colour of the secondary glazing, which I note is intended to be as close as possible to that of the existing stone frame to the window. However, I cannot find a link to this within the submitted information, and an internet search for "Golden Beach" finish in the Interpon Anodic III Collection' brings up results which suggest that the finish is metallic (i.e. shiny). This may not be appropriate for the context. Is the applicant able to provide more details or ideally a sample?

Thanks,

Emily
