[You don't often get email from [REDACTED] learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Thank you for your reassurance and quick reply. I did look at it yesterday (unfortunately I now have a disability so I am not able to get around so easily) and I agree it isn't in the best of shape. New growth however is regenerating along its limbs but the overall tree would need work and a severe cut back. It is also very close to a nearby house. The Planning Application Notice informing us, 'Oak - Fell' was my concern and possibly more information given as to why eg diseased or dying or dead would be helpful.

With Regards
[REDACTED]

> I am concerned at the notification of the felling of an Oak tree on this site without any other information being given whether it is due to disease or it is already dead. A basic requirement of notification to residents who will be affected by yet another tree in the area being felled. Why must it be felled?
