I haven't yet been to view the tree but I can assure you that an proposed works are not due to neglect.

Pine trees should, ideally not be pruned at all, in the interests of both their health, and safety.

Please let me know if you wish your comments to be treated as an objection.

Kind Regards,

Dear Irene Fletcher

We have lived at our current address for 26 years and as far as we are aware the fir tree that is subject of this application has never received any attention. It has grown significantly in that time to the extent that it now blocks much of the sunlight from our patio in the early evening in the summer months whereas years ago that was not the case so there will be some benefit to us if it now has to be removed.

Having said that we shall be disappointed if it is lost completely and would much prefer to see it saved and perhaps trimmed back to a smaller size if that is a viable option.

Obviously we accept safety has to be considered and given priority so if the tree must be removed so be it but we do wonder whether this would have been necessary had the owner given it proper attention over the years

Yours sincerely
