☒ Yes

☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The application is to ratify the advice given by MSDC in 2017 that planning permission was not required to change a garage door to a pair of French doors provided that the size of the opening was not changed. The works were subsequently completed by Provincial Windows.

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

I attended the planning offices at MSDC in Haywards Heath in 2017 (spring) and asked a planning officer if planning permission was required to change the existing "up and over" garage door with a set of French doors to maintain existing use of the workshop space to house a car and also provide a more convenient form of entry to the house. I was advised by the officer that planning permission was not required provided that the opening size of the door was not changed and that there was no covenant in place requiring that the space in the garage must be used for parking (no such covenant is in place). Accordingly I proceeded with the work and did not apply for permission as I had been advised this was not needed.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

There is no planning permission for these works as I was advised this was not required.

It is an important principle of decision-making that the process is open and transparent.
