Hello Josh
This is from my recent contact with SE Water.
I had spoken to them previously but hadn't pursued the connection while awaiting the planning outcome.

They have confirmed a supply will be available so hopefully this mail will suffice

Good Steve,
Thanks for chatting with me this afternoon. As we discussed on the phone, South East Water is indeed obliged to supply water to new customers, so we are more than happy to help you get this sorted!
Regarding your recent application, we just need one thing from you to move it through to the next stage:

- **Site boundary details:** Please provide a site plan clearly highlighting the boundary.

Once we have this, we will get your estimate and proposed meter position to you within 20 working days.
Plot to postal address Please could you also send us the 'plot to postal' address (the street name and house number) as soon as possible? This is the official address for the connection, and we need it to set up your new billing account.
Cancellations Just to make you aware, all cancelled works are subject to a standard fee of £25.17. If an application is cancelled, this amount will simply be deducted from any refundable money.
Need a hand? If you have any questions, our FAQs are a great place to start: <https://www.developers.southeastwater.co.uk/help/faqs>. If you still need help, please just reply to this email or call us on **0333 000 0060**.
You can also easily track your application's progress here: <https://www.developers.southeastwater.co.uk/trackMyApp/>.

Thanks,
Kelsey
