Hi,

I would like to object to the subjected planning application. However the website keeps encountering server issues when adding comments.

Postal address
42 Forest View Road
East Grinstead
RH19 4AR

Please find my comments below

Already stretched resources in the area. Look at the surrounding roads that have been resurfaced many times and are full of cars literally parking around corners.

We have had water supply issues recently.

We can not deal with more distribution and inconvenience to our lives for someone to make huge profit off houses. It is already difficult to get in and out of east Grinstead. This will make things even harder. Put strain on already strained services of which developers will pledge but never follow through with help.

This build adds nothing to the surround area. Adds nothing for the community. They are not proposing services or additions to help. It takes away from the natural beauty, wildlife, farm land and so on.

Therefore I don't support this application.

Thanks,
