Subject: Ref PA DM/25/1495 Installation of a 22.5 metre Communications Mast

You don't often get email from [REDACTED] [on why this is important](#)

With reference to the above, I note that your website does not include any statements addressing the considerable health risks relating to such installations.

Has either the applicant or the authority addressed this issue and if so can the appropriate reports be published on your website as soon as possible please?

I further note that no illustration has been posted that can give consultees an accurate idea of the proposed location of this mast. A map/ plan would be helpful.
