[REDACTED]
Proposed two bedroom dwelling.

Land to R/O 142 Holtye Road, East Grinstead.

Thank you for your letter giving notice of the planning application.

I strongly object to this proposed overdevelopment.

To try and squeeze a house into this back garden is ridiculous and will detract from the appearance of Turner Court. It will certainly not enhance the immediate area, will inevitably lead to loss of trees despite any assurances given, and will cause aggravation to all residents in Turner Court.

The entrance to Turner Court is narrow with limited parking space, usually occupied by staff from the local hospital. The attached photos, taken late afternoon when those staff had gone home, show the access road, the proposed entrance is where the grey Volvo is parked. This entrance would be difficult to use and would cause of danger to all residents and vehicles entering and leaving Turner Court.

Public Service & delivery vehicles already experience difficulty in accessing and turning. Any additional entrance onto this narrow access road will only aggravate the problem.

I note that your letter giving notice of this application has only been sent to a limited number of residents. As all properties in Turner Court will be adversely affected by this proposal, I think they should all be formally notified and not hear of this by word of mouth.
