Address: 41 Pullman Avenue HAYWARDS HEATH

Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The more I read and hear about this mast , the more I am AGAINST it. The main purpose is to provide a phone signal for rail commuters and is of no benefit to the local community. It would be unsightly and would also destroy at ground level a natural area ,and harming wildlife.

I was also concerned to learn that signals from such a mast could affect those of us with any metal implants (I have had two knee replacements) and would welcome some clarification on this please.

This application seems totally unnecessary, visually awful, harmful to the environment and possibly humans with metal implants !

I OBJECT !

Kind regards
