Burgess Hill

With reference to the application of a 20 metre telecommunications monopole being installed on the corner of Kingsway and Burdocks drive, this is in a totally inappropriate position for it, as it will be very close to an electricity sub station, Kingsway is a very heavily used road now, and children will be passing this pole several times a day as there are two schools in the immediate vicinity and it is very close to a crossing point for them, and there is already a lot of road furniture in this location, with all the ancillary equipment to go with this pole, it will make it a real eyesore, it will also impact on the value of our properties, and no compensation is being offered. There is also the unknown effect of these masts on our health, has this been considered? I'm sure there are more appropriate places this could be installed.

We have an enormous eyesore of a care home next to us, we don't want another one with this pole
