Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	
Comments:	Number 43 is one of the largest if not the largest properties in Greenways. I believe it has the longest frontage in Greenways. It is important to pay close attention to the street scene. I would request that a condition of approval would be that all materials used match exactly the ones already in use. Exactly as opposed to similar. I would also ask that the windows if replaced or new should also

match the style and design of the existing ones.

Regarding the hedge at the front it has long been an important part of the greenways street scene and should be retained as is. When Greenways was built there were many hedges hence the name.

Should approval be given I would request that all construction vans ,builders lorries etc must only park on the large driveway of number 43. In recent times when other building work has been undertaken in Greenways there were incidents of driveways being obstructed and in some cases room to enter and exit driveways restricted to the point where entering or exiting became a difficult manoeuvre. As Greenways has no pavements for pedestrians parking in Greenways causes problems and danger to walkers using the narrow tarmac available to walk along.

Kind regards
